

# West Montgomery Avenue Water Main Nighttime Construction

**Project  
Description:**

City contractor, *Mid-Atlantic Utilities, Inc.* will be replacing approximately 100 feet of water main along West Montgomery Avenue at the North/South Adams Street intersection. Due to traffic and the need to shut off the water main, a portion of the construction project will be completed during the night between 8 p.m. and 5 a.m.

Night time construction is scheduled for three nights, starting on the evening of Monday, Aug. 6 and will conclude the morning of Thursday, Aug. 9, weather permitting. The work will involve removing and replacing approximately 100 feet of water main at the West Montgomery Avenue and North/South Adams Street intersection. During the construction process there will be normal construction machinery noise. We apologize for any inconvenience this may cause.

**A separate notice will be mailed to those properties whose water will be shut off during the night.**

**Purpose:**

As part of Rockville's Water Main Rehabilitation program, the Department of Public Works will be replacing pipes in our water system, which assures customers continued dependable water service that operates efficiently. The improvements provide assurance that water pressure in your home or business, as well as essential fire protection, will be maintained at all times. This program meets the Mayor and Council's goal for a sustainable infrastructure. The program replaces water mains prioritized based upon pipe condition, water quality, water break history and fire flows.

**Location:**

The intersection of West Montgomery Avenue and North/South Adams Street.

**Timeline:**

Work is scheduled to be completed in three nights, beginning the evening of August 6 and will conclude the morning of August 9, weather permitting. If it rains, the work will be scheduled for the following night.
